

## AHBS IV: INTEGRATING AFRICA: BRIDGING THE HEALTH GAP

Date: October 7<sup>th</sup> to 9<sup>th</sup> 2019

Venue: Skylight Hotel, Addis Ababa, Ethiopia

Africa is growing, and it's growing rapidly. Over the last 20 years, Africa's population has increased by 2.5% every year and is expected to rise to 2.4 billion by 2050 whilst bearing 25% of the global disease burden and is served by merely 2% of the world's healthcare workforce. As the population booms, there will be an increasing need for better and quality healthcare services in Africa, to ensure all people can access the health services they need, without facing financial hardship. While investment in healthcare and coverage of key health services is increasing slowly, Africa still has a long way to go.

With this backdrop, the 4th edition of the [Africa Health Business Symposium \(AHBS\)](#) will be a key platform to discuss **"INTEGRATING AFRICA: BRIDGING THE HEALTH GAP"** with focus on how the private health sector can bridge the gap towards achieving the AHS:

- Robust frameworks, policies and governance
- Integration of the private sector
